Viškovska naselja okružena su pitomim krajobrazom koji poziva na otkrivanje tragova prošlosti. Prepustite se i odlutajte našim šetnicama i biciklističkim stazama do oaza mira i prekrasnih vidika. Otkrijte Viškovo koristeći HALUbike!

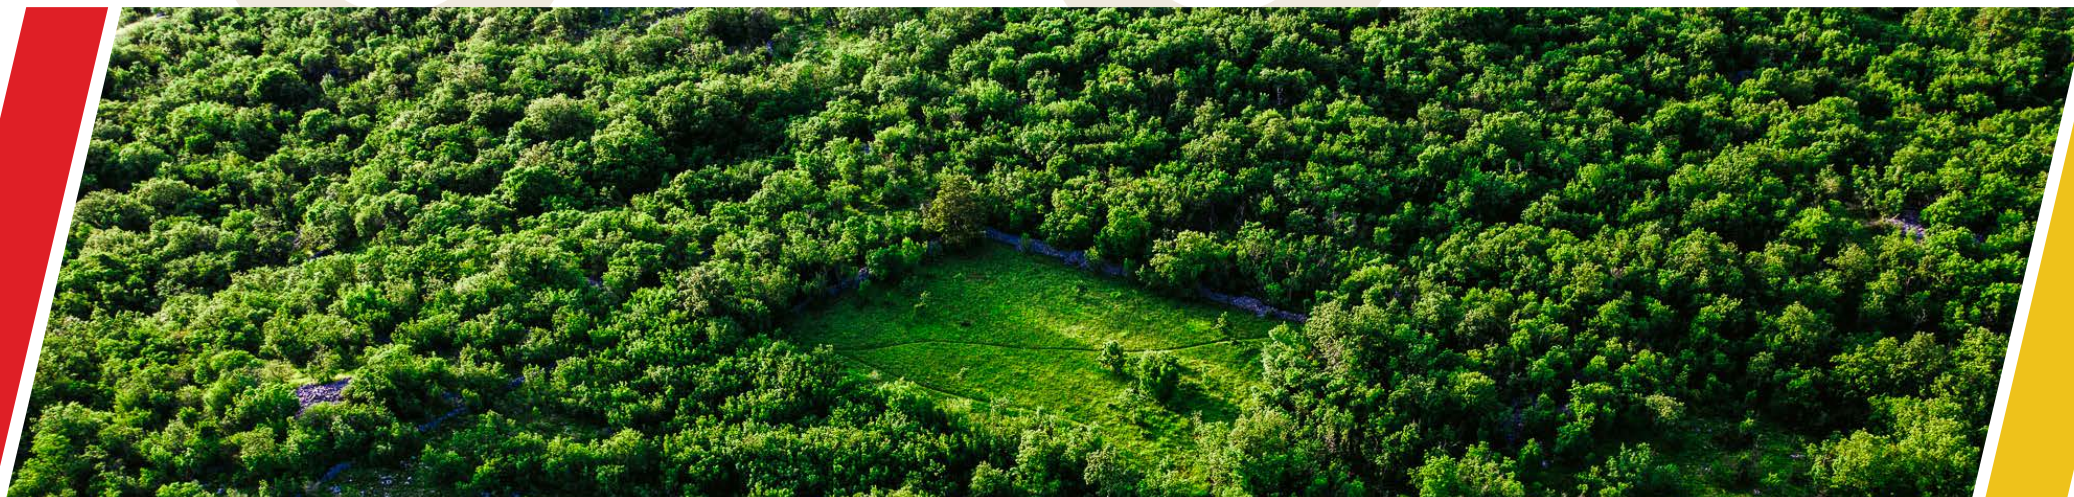

HALUbike, javni servis najma i korištenja bicikala u općini Viškovo, dostupan je na dvije bike-sharing stanice. U središtu Viškova, na parkiralištu Milihovo, nalazi se stanica sa 6 mehaničkih i 6 električnih bicikala. U Ronjgima, u neposrednoj blizini mreže šetnica i biciklističkih staza te Ustanove „Ivan Matetić Ronjgov“, nalazi se stanica sa 4 mehanička i 4 električna bicikla.

Bicikle je moguće unajmiti na jednostavan način direktno na stanicama. Očitavanjem QR koda na pilonu korisnik vrši prijavu na aplikaciju GO2BIKE. Prihvatanjem općih uvjeta vrši se upis podataka i prijenos sredstava na prepaid račun putem kreditne kartice i WSPay sigurnog sustava za autorizaciju i naplatu. Nakon odabira željenog bicikla i očitavanjem njegovog QR koda zvučni signal korisniku javlja da je bicikl otključan i spreman za korištenje. Po završetku vožnje bicikl je potrebno ispravno vratiti na postolje, nakon čega se korisniku s njegovog prepaid računa automatski skida iznos sukladno vremenu korištenja i važećem cjeniku.

Viškovo and its neighbouring villages are surrounded by a gentle landscape that invites you to discover traces of the past. Let our hiking and cycling trails take you to oases of peace and beautiful views. Discover Viškovo using HALUbike!

The HALUbike public bicycle rental system in the Municipality of Viškovo is available at two bike-sharing stations. In the centre of Viškovo in the Milihovo parking area, there is a station with 6 regular and 6 electric bikes. In Ronjgi, in the immediate vicinity of the network of hiking and cycling trails and the Ivan Matetić Ronjgov Cultural Institution, there is a station with 4 regular and 4 electric bikes.

Bicycles can be rented simply and directly at the stations. By scanning the QR code on the dock, the user logs into the GO2BIKE application. After accepting the general terms and conditions, the user enters the data and the required amount is then transferred to the prepaid account via credit card and the WSPay secure authorisation and payment system. After selecting the desired bicycle and scanning its QR code, an audio signal informs the user that the bicycle has been unlocked and that it is ready for use. At the end of the ride, the bike must be returned to the slot correctly, after which an amount is automatically deducted from the user's prepaid account according to the time of use and the valid price list.
